

# INSTALLATION INSTRUCTIONS

## Part Number 33-2858

This filter fits: See current K&N catalog for complete listings

**\*FREE K&N DECAL** To register your warranty, please see us online at [knfilters.com/register](http://knfilters.com/register). **FREE K&N DECAL\***

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter is a direct replacement for the stock air filter, and no modifications will be required. However the following procedure **MUST** be followed to ensure a proper fit and seal of the K&N Filtercharger®.

- 1) Remove the old filter.
- 2) Wipe any dirt out of the lid and base. The airbox must be clean and dry so that the grease may be applied smoothly.
- 3) Using the supplied tube of grease, liberally apply a coat of grease to the sealing side of the airbox lid. The seal that runs around the perimeter of the filter compresses the grease.  
Additional sealing grease may be purchased in an 6 oz. tube from any K&N retailer.
- 4) The oiled K&N filter is now ready to be installed.

**THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.**
