

INSTALLATION INSTRUCTIONS

Part Number E-4527

This filter fits: See catalog for current applications

* FREE K&N® decal To register your warranty, please see us online at knfilters.com/register. FREE K&N® decal *

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter can last many seasons. This filter is a direct replacement for the stock air filter, and no modification will be required. However the following procedures MUST be followed to ensure the proper fit and seal of the air filter.

INSTALLATION:

1. Remove the stock air filter.
2. Before installing the air filter make sure to clean both the air box base and cover of any dust and debris. (Fig. 1)
3. Install the K&N air filter into base, making sure that the bolt carefully goes through the center of the filter.
4. Apply the provided rubber washer onto the stud, making sure that it lays flat on top of the filter. (Fig. 2)
5. Now replace the air box cover and secure using the stock wing nut. (Fig. 3)

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
