

INSTALLATION INSTRUCTIONS

Part Number SU-5002

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter can last many seasons. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N Filtercharger® seals properly.

INSTALLATION

1. Remove the stock air filter.
2. Carefully clean the air filter sealing surface in the air box.
3. Apply a small amount of the provided K&N Sealing Grease to the sealing surface in the air box and the base of the K&N Filtercharger®.
4. Install the K&N Filtercharger® with the welded end of the bracket facing down. (Fig. 1)
5. Push the K&N Filtercharger® against the sealing surface of the air box to ensure a correct seal.
Note: The provided spacer is installed between the bracket and air box. (Fig. 2)
6. Tighten the stock screw.
7. Reinstall the air box lid.

Available to purchase separately

Precharger Wrap; SU-4002PK

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
